

Active360 Chair

Enhanced interaction and engagement

DESCRIPTION

Collaborative workspaces have become the latest trend in places such as libraries, educational centers, and even in companies that are committed to teamwork. With Active360 chairs, users can quickly and effortlessly change the room's configuration and store backpacks in the base avoiding cluttered aisles. The seat bends and flexes with the user for better ergonomics and comfort, which can be increased by armrests installed in the Active360+ model. The optional table and cupholder are precious add-ons for dynamic learning spaces.
