

## Plugtower

Mobile charging solution built for modern classrooms

### DESCRIPTION

Classrooms rely on technology, but most aren't equipped to charge multiple devices at once. That's where the **Plugtower** comes in. With a mix of power outlets, USB ports, and a wireless charging pad, this mobile hub makes it easy to charge laptops, tablets, and smartphones all at the same time. Its compact, portable design allows it to move effortlessly around the room, supporting digital learning, group projects, and even online testing without disruption. A must-have for any tech-enabled classroom.
