

Focal Tabletop Projection Screen

Portable tabletop projection screen

DESCRIPTION

Tabletop projection screens are ideal for pop-up presentations and occasional projection needs. This product range comes with two feet to stand on the table and therefore doesn't require ceiling or wall mounting. The matt white surface provides a great viewing experience, while the included handle brings to the product easy portability.

PRODUCT SPECIFICATIONS

Reference	9D006062
Size	1020x760 mm
Viewing Angle	160°
Format	4:3
Black Borders	Yes
Black Rear	Yes
Lift Mechanism	Manual
Mounting	Self-standing feet
Carrying Bag	Not included

CLEANING AND MAINTENANCE

Cleaning and Maintenance

Frequent use of a screen requires appropriate care. All screens can be cleaned with carefully applied weak soapsuds. When not in use, the screens should be retracted to their casing to protect them against depositing dust. Avoid touching the screen fabric with bare hands since, in the course of time, dust will stick better to the (greasy) imprints than on clean spots.

Cleaning in 5 easy steps:

Step 1: Use a new dry microfiber cloth and gently wipe the screen. Do not scrub!

Step 2: Make a mixture of 95% warm water and 5% dish soap.

Step 3: Moisten the microfiber cloth without soaking it.

Step 4: Gently clean the screen using the wet microfiber cloth. Apply light pressure and rub the screen side to side.

Step 5: When it is clean, use a dry cloth or towel on the surface to absorb any remaining moisture.
