

## Earth Kyoto Mobile Easel

Value Sustainability with this mobile presentation easel

### DESCRIPTION

Kyoto is designed as a multipurpose presentation easel to fit dynamic spaces where the team can adapt the product to their needs and when not in use, it can easily be packed away to save space. You can write or draw on the paper roll, over the whiteboard surface or use a paper pad. The acrylic ruler not only helps to draw straight lines as it makes the paper ripping off very easy. The whiteboard detaches from the structure and can be carried from space to space. On the back of the product you will find a tray that can store markers and eraser.
