

## Maya Magnetic Map Board

Transforming learning spaces into captivating historical and geographical journeys

### DESCRIPTION

Ignite curiosity in Geography and History classes with our **Magnetic Map Boards** designed specifically for educational exploration. As the map is printed directly on a magnetic surface, magnets can be used to hold documents and notes. While the dry erase surface invites students to illustrate and annotate historical events and geographical features. The concealed corners simplify wall mounting, transforming classrooms into an engaging spaces where the past comes to life.
