

Pillar Boards

Elevating work and learning spaces

DESCRIPTION

Ceramic pillar boards offer the perfect combination of functionality and versatility for learning spaces. By installing multiple boards at the front of the room, you can maximize your available space. Thanks to our user-friendly counterweight sliding mechanism, the height of the boards can be easily adjusted to meet your specific needs, ensuring that content stays at eye level for optimal visibility and audience engagement. The durable ceramic surface provides long-lasting use and is easy to maintain, making it ideal for frequent use.
