

Ultimate Plus Easel

Multi-functional mobile solution to accommodate double faced boards

DESCRIPTION

Mobility adds versatility to any collaborative learning space. Using a board mounted on a mobile support is a clever idea when the classroom doesn't have space to add more writing or display surfaces. The mobility allowed by this product lets the group free to quickly change the class layout and be more collaborative. The board included in this model is double-sided and therefore can be used on both sides simultaneously.

DOUBLE SIDED
