

Wing Boards

Trio Boards for Interactive Flat Panels

DESCRIPTION

This clever solution for classrooms makes the writing surfaces available during interactive classes and work as a lockable cabinet to protect the Interactive Flat Panel or LCD as the Teacher leaves the room. With WING BOARDS you don't have to choose what goes in the front of the room, the Interactive Panel stays in the front of the class with 4 writing surfaces available while the lesson unfolds. Bi-Bright WING BOARDS was designed as a one-size-fits-all solution.
