

## Interactive Panel

Interactive Touch Screen for Collaborative Spaces

### DESCRIPTION

The interactive Flat Panel is one of the most useful assets in a class or meeting room. This device enables the speaker to add digital content to the presentation, including videos and virtual learning resources such as Apps. The touch interface recognizes your finger, pen and pointer, guaranteeing a smooth high-resolution experience. And thanks to the whiteboard board feature you can still write and make annotations, draw and organize your ideas to develop memorable lessons and presentations very easily.

CONNECTIVITY:  
HDMI, USB
